It had been producing the Marines for Mercury in the mid 70s. Yamaha makes the most reliable electronics of any of the outboard manufactures. This 3 cylinder 70 hp has been a light weight economical outboard. Benefits: We found that the few failures with this class of outboards are due to fuel contamination or oil injection failure. Fuel contamination can be prevented by installing a Racor filter and checking it regularly.

Re: Timing adjustment 1986 70 HP Johnson You should be able to achieve proper idle speed before the cam hits the roller. Throttle pickup timing (when the cam hits the roller) should be approximatly 4 deg ATDC. To adsjut the pickup timing change the lengthh of the rod by loosening the locknut and turning the knurled nut.
