The sections of a user manual often include: A cover page A title page and copyright page A preface, containing details of related documents and information on how to navigate the user guide A contents page A Purpose section. This should be an overview rather than detail the objective of the ...

~~User guide - Wikipedia~~

A user manual is a formal writing piece with a specific structure, and should be written by someone who is intimately familiar with the product such as a technical writer or the product designer. Writing an effective user manual requires knowing who is going to be using the product, then writing it with these users in mind.
