Just as Adrian Mole defined me aged 13¾, Dylan Thomas' 'Portrait of the Artist as a Young Dog' did so at 18. After receiving this as a gift from my parents at age 13, I'm glad I waited to read this when I was a little older. In 10 short stories, Thomas takes you through his childhood starting as a youngster and finishing as a young man.

These first lines of A Portrait of the Artist as a Young Man represent Joyce's attempt to capture the perceptions of a very young boy. The language is childish: "moocow," "tuckoo," and "nicens" are words a child might say, or words that an adult might say to a child.

Artists' self-portraits are an interesting sub-group of portraiture and can often be highly self-revelatory. Those of Rembrandt are particularly famous. A self-portrait does not necessarily have to be representational – an abstract or symbolic depiction by an artist of themselves can also be classed as a self-portrait.

For the centennial of its original publication, a beautiful Deluxe Edition of one of Joyce's greatest works—featuring an introduction by Karl Ove Knausgaard, author the New York Times bestselling six-volume autobiographical novel *My Struggle*, which has been likened to a 21st-century *Portrait of the Artist as a Young Man*. The first, shortest, and most approachable of James Joyce's novels, *A Portrait of the Artist as a Young Man* portrays the Dublin upbringing of Stephen Dedalus, from his youthful days at Clongowes Wood College to his radical questioning of all convention. In doing so, it provides an oblique self-portrait of the young Joyce himself. At its center lie questions of origin and source, authority and authorship, and the relationship of an artist to his family, culture, and race. Exuberantly inventive in style, the novel subtly and beautifully orchestrates the patterns of quotation and repetition instrumental in its hero's quest to create his own character, his own language, life, and art: "to forge in the smithy of my soul the uncreated conscience of my race." This Penguin Classics Deluxe Edition, published for the novel's centennial, is the definitive text, authorized by the Joyce estate and collated from all known proofs, manuscripts, and impressions to reflect the author's original wishes. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

"This biography, authored by one of the world's leading experts on Goya, makes available never-before translated documents of his life, and uses new research in Spanish, including detailed information on his youth, family, commissions, correspondence, and travels to create the most complete portrait yet of an often elusive artist and the dramatically changing society in which he lived and worked. Contrary to past projects that have portrayed Goya as an isolated figure, obsessed with darkness and death, Janis Tomlinson's deeply researched biography presents a painter convinced of his own genius and capacity for creation, one with an unrelenting drive, whose great sociability and skill in navigating court intrigues will come as a revelation to scholars and general readers alike"--

"Portrait of an Artist features interviews and original photos of some of today's most important women in the creative industries"--

The first exhibition to focus on images of artists from within the Royal Collection, 'Portrait of the Artist' not only show-cases self-portraits by world-renowned artists including Rembrandt, Rubens, Artemisia Gentileschi, Lucian Freud and David Hockney but also features images of artists by their friends, relatives and pupils, including the most reliable surviving likeness of Leonardo da Vinci by his student, Francesco Melzi. Well-known self-portraits intended to advertise the artist's talents will be shown alongside more intimate and personal works. The exhibition will examine a range of themes played out within these objects, from the 'cult' of the artist to the symbolism evoked through images of the artist's studio. The changing status of the artist over the centuries is another theme and the way in this is conveyed, both in the physical works and in the relationships between artist and patron will be highlighted. The role of monarchs in commissioning, collecting and displaying portraits of artists will also be discussed.
