Alex became a full member of Magnum Photos in 1979. Working mostly in Latin America and the Caribbean, he credits those cultures with inspiring his interest in color, when he transitioned from black-and-white photography in 1979. Webb has published 16 photography books, including *The Suffering of Light*, a survey of 30 years of his color photographs, and *Memory City* (with poet and photographer Rebecca Norris Webb, his wife and creative partner), a meditation about film, time, and the city of ...

Gathering some of Alex Webb's most iconic images, many of which were taken in the far corners of the earth, *The Suffering of Light* brings a fresh perspective to his extensive catalogue. Recognized as a pioneer of American colour photography, Webb has since the 1970s consistently created photographs characterized by intense colour and light. His work, with its richly layered and complex composition, touches on multiple genres, including street photography, photojournalism and fine art, but as Webb claims, to me it all is photography. You have to go out and explore the world with a camera. Webb's ability to distill gesture, colour and contrasting cultural tensions into single, beguiling frames results in evocative images that convey a sense of enigma, irony and humour. Featuring key works alongside previously unpublished photographs, *The Suffering of Light* is Webb's first comprehensive monograph and provides the most thorough examination to date of this modern master's prolific, thirty-year career.

Gathers photographs taken in Haiti, Mexico, the Dominican Republic, Egypt, Barbados, India, Zaire, Ivory Coast, Uganda, and Trinidad

In this series, Aperture Foundation works with the world's top photographers to distill their creative approaches, teachings, and insights on photography offering the workshop experience in a book. Our goal is to inspire photographers of all levels who wish to improve their work, as well as readers interested in deepening their understanding of the art of photography. Each volume is introduced by a well-known student of the featured photographer. In this book, internationally acclaimed color photographers Alex Webb and Rebecca Norris Webb, offer their expert insight into street photography and the poetic image. Through words and photographs their own and others they invite the reader into the heart of their artistic processes. They share their thoughts about a wide range of practical and philosophical issues, from questions about seeing and being in the world with a camera, to how to shape a complete body of work in a way that's both structured and intuitive.

In 1998 Alex Webb visited Istanbul and was immediately enthralled by the people, the layers of culture and history, the richness of street life. But what particularly drew him in was a sense of Istanbul as a border city, lying between Europe and Asia. As he writes, For thirty-some years as a photographer I have been intrigued by borders, places where cultures come together, sometimes easily, sometimes roughly. He has returned to Istanbul whenever possible, and the resulting body of work some of Webb's strongest to date conveys the frisson of a culture in transition, yet firmly rooted in a complex history.

La Calle brings together more than thirty years of photography from the streets of Mexico by Alex Webb, spanning 1975 to 2007. Whether in black and white or color, Webb's richly layered and complex compositions touch on multiple genres. As Geoff Dyer writes, "Wherever he goes, Webb always ends up in a Bermuda-shaped triangle where the distinctions between photojournalism, documentary, and art blur and disappear." Webb's ability to distill gesture, light, and cultural tensions into single, beguiling frames results in evocative images that convey a sense of mystery, irony, and humor. Following an

initial trip in the mid-1970s, Webb returned frequently to Mexico, working intensely on the U.S.-Mexico border and into southern Mexico throughout the 1980s and '90s, inspired by what poet Octavio Paz calls "Mexicanism--delight in decorations, carelessness and pomp, negligence, passion, and reserve." *La Calle* presents a commemoration of the Mexican street as a sociopolitical bellwether--albeit one that has undergone significant transformation since Webb's first trips to the country. Newly commissioned pieces from noted Mexican and Mexican American authors lend further insight into the roles the streets have played for generations: part arterial network, part historical palimpsest, and part absurdist theater of the everyday.

In 2005, Rebecca Norris Webb set out to photograph her home state of South Dakota, a sparsely populated frontier state on the Great Plains with more buffalo, pronghorn, mule deer and prairie dogs than people. South Dakota is a land of powwows and rodeos, corn palaces and buffalo roundups; a harsh and beautiful landscape dominated by space, silence, brutal wind and extreme weather. The next year, however, everything changed for Norris Webb, when her brother died unexpectedly of heart failure. "For months," she writes in the introduction to this volume, "one of the few things that eased my unsettled heart was the landscape of South Dakota. For each of us, does loss have its own geography?" *My Dakota* is a small intimate book about the west and its weathers, and an elegy for a lost brother.

The United States-Mexico border -- a ribbon of land some two thousand miles long and ten miles wide that is home to twelve million people -- is a narrow strip where cultural differences between the two lands are blurred, where an atmosphere of transience and crossings dominates. Noted photographer Alex Webb has spent more than twenty-five years covering the region, and his work captures the humor and pathos, paradox and tragedy, of life in the borderland. Webb's photographs illuminate the precarious world of illegal border crossers: tedious waits along the fence, late-night bridge traversals, clandestine travels north, detainments and arrests. Yet his images also suggest crossings that are cultural, economic, and spiritual in nature, such as nightclubs and religious celebrations, tourists and day laborers, fiestas and swap meets. Equally striking is his vision of Tijuana, El Paso, and other legendary border towns. Complementing the photographs is an essay by Tom Miller, who has been writing about the American Southwest and Latin America for more than three decades and first covered the border with Alex Webb in the 1970s. Miller focuses on the constant interweaving of fusion and division, unexpected felicity and devastating misery. Together, writer and photographer offer an indelible portrait of the complex, culturally rich land of the border.

Art Deco architecture. These vivid and compelling images question the nature of our assumptions about the world of Florida. Webb's Florida seems at once so familiar and yet so strange. His ironic, impressionistic record of the passage of life sweeps the state from Fort Pierce and Daytona Beach to Key Largo, Suwanee and Apalachicola to Disney World. Among the photographs that reveal the texture of life in this beachfront state are unique juxtapositions: a Key deer walking.
