Code from Audi and VW engines

Question: I have a six-year saga with Audi regarding an ongoing repair. The car is a 2009 Audi A4 Avant, and has a 2.0T engine. This engine was known to burn excessive oil, and there is now a class action lawsuit regarding the engine. At 65,000 miles, the dealer had to rebuild the engine due to this problem. The car now has 135,000 miles.

Co-developed with Porsche, this new turbo V6 has the same advance level as BMW's B58 engine (see our review here). Compared to its predecessor (the 3.0L supercharged V6), the new V6 is much lighter, which is critical for Audi vehicles since they are all based on the FWD layout, and puts the engine 100% ahead of the front axle.
