The past 48 hours have seen a raft of conflicting statistics suggesting there are somewhere between 34,000 and 96,000 people getting infected with coronavirus each day in England. 468 comments

"The Jesuit review of faith and culture," Nov. 13, 2017-

These essays are organised into four sections, dealing with the history of war crime trials from Weimar Germany to just after World War II, the sometimes diverging Allied attempts to come to terms with the Nazi concentration camp system, the ability of postwar societies to confront war crimes of the past and the legacy of war crime trials.

Shortly after 9:00 a.m. on May 27, 1947, the first of forty-nine men condemned to death for war crimes at Mauthausen concentration camp mounted the gallows at Landsberg prison near Munich. The mass execution that followed resulted from an American military trial conducted at Dachau in the spring of 1946|a trial that lasted only thirty-six days and yet produced more death sentences than any other in American history. The Mauthausen trial was part of a massive series of proceedings designed to judge and punish Nazi war criminals in the most expedient manner the law would allow. There was no doubt that the crimes had been monstrous. Yet despite meting out punishment to a group of incontestably guilty men, the Mauthausen trial reveals a troubling and seldom-recognized face of American postwar justice|one characterized by rapid proceedings, lax rules of evidence, and questionable interrogations. Although the better-known Nuremberg trials are often regarded as epitomizing American judicial ideals, these trials were in fact the exception to the rule. Instead, as Tomaz Jardim convincingly demonstrates, the rough justice of the Mauthausen trial remains indicative of the most common|and yet least understood||American approach to war crimes prosecution. The Mauthausen Trial forces reflection on the implications of compromising legal standards in order to guarantee that guilty people do not walk free.

Since the end of World War II, the ongoing efforts aimed at criminal prosecution, restitution, and other forms of justice in the wake of the Holocaust have constituted one of the most significant episodes in the history of human rights and international law. As such, they have attracted sustained attention from historians and legal scholars. This edited collection substantially enlarges the topical and disciplinary scope of this burgeoning field, exploring such varied subjects as literary analysis of Hannah Arendt's work, the restitution case for Gustav Klimt's Beethoven Frieze, and the ritualistic aspects of criminal trials.
