Clean Architecture is basically one idea repeated over and over for 30 chapters.

Acces PDF Clean Architecture A Craftsmans

The idea is that the business logic should be self-contained. It should not depend on the database or sockets or frameworks or GUI. It is a really, really good idea, and it is not easy to actually follow.

Components You may find it strange that
we would create a component—in this
example, `UserService`—that contains nothing
but an interface. Such a component
contains no executable code!
