Poverty, Health, and Nutrition (PHND) Poverty, food insecurity, and poor nutrition and health are among the most pernicious problems eroding quality of life and limiting economic productivity. IFPRI's Poverty, Health, and Nutrition Division (PHND) examines the main drivers of these problems and identifies effective strategies to improve the lives of poor populations in developing countries.

[Poverty, Health, and Nutrition \(PHND\) | IFPRI](#) ...

Food security is when the entire population of a country has access to enough safe and nutritious food to maintain an active life. The opposite is food insecurity, which is a problem for lots of...

Poverty, Food Security, Open Data and COVID-19. The State of Food Security and Nutrition in the World is an annual flagship report intended to inform on progress towards ending hunger, achieving food security and improving nutrition worldwide. The flagship report, jointly prepared by the UN Food and Agriculture Organisation (UN FAO), the International Fund for Agricultural Development (IFAD), UNICEF, World Food Programme (WFP) and the World Health Organisation (WHO), provides in-depth ...

[Poverty, Food Security, Open Data and COVID-19 | GODAN](#)

In this Decade of Action for sustainable development, ending hunger, achieving food security, improving nutrition, and promoting sustainable agriculture must remain key priorities. To ensure that all people, in particular the poor, have access every day to safe, nutritious and sufficient food, the international community must make the effective elimination of hunger "one of its foremost and imperative goals."

[Vatican at UN: Agricultural development, food security and](#) ...

According to FAO, chronic under nutrition and food insecurity are principally caused by a combination of factors such as low agricultural productivity, high seasonal and year to year variability in food supplies and lack of off-farm employment opportunities.

[FOOD SECURITY: A STRATEGY FOR POVERTY ALLEVIATION IN NIGERIA.](#)

While food production at the national level routinely exceeds domestic requirements, the availability of and access to adequate nutritious food remains a challenge for many poor households, which is compounded by the country's over-reliance on maize.

[Zambia | World Food Programme](#)

Undernutrition rates are high, especially in rural districts where diets lack diversity [maize being the main staple](#) [and are poor in essential nutrients](#). A Zero Hunger Strategic Review of the food security situation carried out in 2015 highlighted the root causes of hunger, the gaps in support, and the areas where WFP could add value.

[Zimbabwe | World Food Programme](#)

This BRIDGE Cutting Edge Overview Report makes the case for a new, gender-aware understanding of food security, arguing that partial, apolitical and gender-blind diagnoses of the problem of food and nutrition insecurity is leading to insufficient policy responses and the failure to realise the right to food for all people.
