Women, Gender and Art in Asia, c. 1500?1900 brings women's engagements with art into a pan-Asian dialogue with essays that examine women as artists, commissioners, collectors, and subjects from India, Southeast Asia, Tibet, China, Korea, and Japan, from the sixteenth to the early twentieth century. The artistic media includes painting, sculpture, architecture, textiles, and photography. The book is broadly concerned with four salient questions: How unusual was it for women to engage directly with art? What factors precluded more women from doing so? In what ways did women's artwork or commissions differ from those of men? And, what were the range of

meanings for woman as subject matter? The chapters deal with historic individuals about whom there is considerable biographical information. Beyond locating these uncommon women within their socio-cultural milieux, contributors consider the multiple strands that twined to comprise their complex identities, and how these impacted their works of art. In many cases, the woman's status-as wife, mother, widow, ruler, or concubine (and multiple combinations thereof), as well as her religion and lineage-determined the media, style, and content of her art. *Women, Gender and Art in Asia, c. 1500?1900* adds to our understanding of works of art, their meanings, and functions.

In this book, contributors identify and explore a range of iconic works - "Mistress-Pieces" - that have been made by feminists and gender activists since the 1970s. The first volume for which the defining of iconic feminist art is the *raison d'être*, its contributors interpret a "Mistress-Piece" as a work that has proved influential in a particular context because of its distinctiveness and relevance. Reinterpreting iconic art by Alice Neel, Hannah Wilke and Ana Mendieta, the authors also offer important insights about works that may be less well known - those by Natalia LL, Tanja Ostojić, Swoon, Clara Menéres, Diane Victor, Usha Seejarim, Ilse Fusková, Phaptawan Suwannakudt and Tracey Moffatt, among others. While in some instances revealing cross influences between artists working in different frameworks, the publication simultaneously makes evident how social and political factors specific to particular countries had significant impact on the making and reception of art focused on

The concept of the avant garde is highly contested, whether one consigns it to history or claims it for present-day and future uses. The first volume of *The Idea of the Avant Garde - And What It Means Today* provided an unprecedented forum on the kinds of radical art theory and partisan practices that are possible in today's world of global art markets and creative industry entrepreneurialism. This second volume presents the work of 50 artists and writers who explore the diverse ways that today's avant-gardism renews the project of aesthetic and political praxis. The manifest strategies, temporalities and genealogies of avant-gardism are expressed through an international, intergenerational and interdisciplinary convocation of ideas that covers the fields of film, video, architecture, visual art, art activism, literature, poetry, theatre, performance, music and intermedia. garde returns in renewed and vibrant forms. This excellent collection gives an overview of just how and why a renewed experimental artistic politics is important."- Stephen Shukaitis, author of *The Composition of Movements to Come: Aesthetics and Cultural Labor After the Avant-Garde*. "One hundred years after the October Revolution, why does art continue to be meaningful in terms of ideological disruption, that is, in avant-garde terms? If you are looking to understand this question, *The Idea of the Avant Garde* is the place to start. Navigating the decade marked by the financial apocalypse of 2008, this volume introduces the twenty-first century anti-capitalist zeitgeist in no uncertain terms: art reserves the right to not let us lose sight of what is wrong, who is responsible and what it means to take sides." - Angela Dimitrakaki, author of *Gender, ArtWork and the Global Imperative: A Materialist Feminist Critique*. 80 illustrations

patriarchy are expressed and may be transformed through popular cultures and artistic labour. Through their methodological treatment of artwork and popular cultures as material sites of generating aesthetic knowledge and embodying global power, the authors foreground an analysis of global hierarchies and transformative empowerment through critically engaged political imagination and cultural projects. By centralizing an intersectional analysis of the racialized, gendered, economic dimensions of the praxis of culture, *The Art of Global Power* demonstrates how artwork and popular culture projects, events, and institutions are vital sites of transgressing the material conditions that produce and sustain unjust global power hierarchies. This book intervenes in the international relations popular culture literature by problematizing the idea of a single homogenizing global popular culture and engaging with multiple popular cultures articulated from diverse global locations and worldviews. To the international relations aesthetics literature this book contributes an intersectional analysis of aesthetics as an embodied process of knowledge production and action that takes place within global conditions of colonialism, capitalism, and patriarchy. This book will be of interest to students, researchers and practitioners of international relations, and gender, cultural and media studies.

Transnational Perspectives on Feminism and Art, 1960–1985 is a collection of essential essays that bring transnational feminist praxis into conversation with histories of feminist art in the 1960s, 1970s, and early 1980s. The artistic practices and processes examined within these pages all centre on gender and sexual politics as they variously intersect with race, class, sovereignty, Indigeneity, citizenship, and migration at particular historical moments and within specific geopolitical contexts. The book's central premise is that reconsidering this period from transnational feminist perspectives will enable new thinking about the critical commonalities and differences across heterogeneous and geographically dispersed practices that have contributed to the complex and multifaceted relationship between feminism and art today. The book will be of interest to scholars working in art history, cultural studies, visual culture, material culture, and gender studies.
