Originally published in France between 1960 and 1963, Gnosis was based on the course entitled "An Introduction to esoteric philosophy according to the esoteric tradition of Eastern Orthodoxy" that Mouravieff had taught at the University of Geneva.

Traces the use of powerful gnostic visionary techniques from Hellenistic Gnosticism and Jewish merkabah mysticism, through Muhammad, the Ismaeilis, and theosophical Sufism to medieval neoplatonism, and renaissance alchemy.

Boris Mouravieff was an enigmatic 'third man', known to Gurdjieff and Ouspensky, who found and learned to practice what he clearly believed to be the complete system of which only 'fragments' had been previously published in Ouspensky's In Search of the Miraculous. On this basis, he formed the 'Center for Christian Esoteric Studies' in Geneva - now closed. Many of his discoveries are described in his book Gnosis, which contains in its three volumes the fundamental components of that Christian esoteric teaching revealed by Ouspensky in fragmentary form. This Gnosis is not a modern statement of the second century texts known as 'Gnosticism', but a previously unpublished ancient Christian knowledge tradition. Boris Mouravieff taught Eastern Esotericism at Geneva University for many years, and Gnosis is the result of his teaching. First published in French in 1961, the three volumes of Mouravieff's Gnosis have since been translated into Greek and Arabic. During the 1980's and early 1990's, Praxis Research Institute published the English translation of all three volumes. Volume I contains the first level of this teaching, designated as 'exoteric' for outer or surface.

This volume introduces what has sometimes been called "the third component of western culture". It traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith, emphasizing instead the importance of inner enlightenment or gnosis: a revelatory experience which was typically believed to entail an encounter with one's true self as well as with the ground of being, God. The contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions. In Antiquity, one finds the gnostics and hermetics; in the Middle Ages several Christian sects. The medieval Cathars can, to a certain extent, be considered part of the same tradition. Starting with the Italian humanist Renaissance, hermetic philosophy became of central importance to a new religious synthesis that can be referred to as Western Esotericism. The development of this tradition is described from Renaissance hermeticists and practitioners of spiritual alchemy to the emergence of Rosicrucianism and Christian theosophy in the seventeenth century, and from post-enlightenment aspects of Romanticism and occultism to the present-day New Age movement.

Gnosticism developed alongside Judeo-Christianity over two thousand years ago, but with an important difference: It emphasizes, not faith, but direct perception of God--Gnosticism being derived from the Greek word gnosis, meaning "knowledge." Given the controversial premise that one can know God directly, the history of Gnosticism is an unfolding drama of passion, political intrigue, martyrdom, and mystery. Dr. Hoeller traces this fascinating story throughout time and shows how Gnosticism has inspired such great thinkers as Voltaire, Blake, Yeats, Hesse, Melville, and Jung.

Provides overview, from antiquity onwards, on various Western religious esoteric movements. This book includes topics such as: alchemy, Gnosticism, Hermeticism, Rosicrucianism, Theosophy and more.

Gnostic revival is growing in the United States and Europe as people are discovering the mystical roots of their own Western Tradition. This easy-to-read, deeply spiritual introduction to Gnostic Christianity helps beginners down the Gnostic path to esoteric insights and wisdom. tradition. Readers also learn how to apply Gnostic practices, such as affirmation, positive thought, and creative visualization, in daily life. More than a practical guide, this text invites everyone to embark on a spiritual quest toward Spirit-connection and self-realization by way of Gnostic wisdom.

This is the first systematic treatment of esotericism to appear in English. Here is also a historical survey, beginning with the Alexandrian Period, of the various esoteric currents such as Christian Kabbalah, Theosophy, Alchemy, Rosicrucianism, and Hermeticism. Common characteristics of these currents are the notion of universal interdependency and the experience of spiritual transformation. The author establishes a rigorous methodology; provides clarifying definitions of such key terms as "gnosis," "theosophy," "occultism," and "Hermeticism;" and offers analysis of contemporary esotericism based on three distinct pathways. The second half of the book presents a series of studies on several important figures, works, and movements in Western esotericism—studies devoted to some of the most characteristic and illuminating aspects that this form of thought has taken, such as theosophical speculations on androgyny, rosicrucian literature, and Masonic symbolism. The book is completed by a rich and selective Bibliography conceived as a means of orientation and a tool for research.
