He and Mary Flat Head also like to collect things they find on their beaches such as shells, strangely shaped wood, and seaweed. Today they found a talking whale called 'Blubber'.

Tra-la-laaa! Dav Pilkey -- ahem -- we mean, George and Harold, the authors of SUPER DIAPER BABY, are back with their second epic novel!

Four tales of sexy young woman screaming in mingled pain and pleasure as they’re roughly taken by insatiable, hugely hung monsters. Included in this bundle are: Unstoppable - Lacey is a Space Marine, trained to be tough, trained to fight. But all her training won’t help her when she finds herself alone and on the run from a hulking, massively hung alien monster in a remote research base. Her laser rifle won’t stop it. Grenades won’t stop it. The base’s titanium-reinforced doors won’t stop it. Nothing will stop it until it gets what it wants—to roughly have its way with the sexy young soldier. Taken by the Ogres - Furious at being forced into an arranged marriage, Arabella Stroud runs away from home to teach her overbearing father a lesson. But she makes the mistake of cutting through Stonemouth Forest, where she learns a lesson of her own when she’s captured by a trio of ogres, and the huge, well-hung brutes roughly have their way with her. Like an Animal - Dr. Celestia Devereux of W.E.I.R.D.’s Cryptozoology Division has seen her share of unusual monsters. But the group’s latest acquisition is different: The incredibly well-endowed beast clearly lusts after Celestia. Though she knows she shouldn't, she can’t help teasing the captive monster with some tantalizing peeps of the body it wants so badly. It’s just a little good-natured fun.until the hulking creature bursts from its supposedly escape-proof cell and roughly takes the sexy scientist. Deflowered by Bigfoot - When she joined W.E.I.R.D.’s Cryptozoology Division, innocent young Tammy Underwood knew she was in for some surprising experiences. But she never imagined she would wind up buck naked in the deep woods, serving as bait in a Bigfoot hunt. Nor could she imagine that the scheme would go awry, and she would find herself completely at the mercy of the rough beastman.

Months ago, Drew Colesworth had only meant to play pilot and bring his best friend, Jaime, to an isolated island owned by Jaime’s father, Sir Ian Gallagher. It had sounded like fun, but quickly turned into a nightmare. Jaime’s father was dead, his terrible experiments exposed, and the island run by the subjects of those experiments. Sir Ian had been a modern day Moreau, funding the cloning of caveman DNA. They’d made many creatures, including handsome, muscled cavemen who looked more like modern humans than the others. The nightmare had soon turned into an erotic dream. Drew had succumbed to two cavemen and spent nights in the bed of Ash’tar and Mel’em, his body used and abused—to his delight. Drew and Jaime had been allowed to return home—Jaime to deal with the death of his rich, powerful father and Drew simply as Jaime’s way home. Never planning to return, he tries to put the island and the cavemen out of his mind, but soon finds he can’t. He longs for the feel of Ash’tar and Mel’em beside him once more, but knows it’s impossible. They are worlds apart... epochs apart. When Jaime must return to the island, he begs Drew to fly them back. Drew hesitates—only because he knows he might never leave the island again if he returns.

Follows a group of six kids stranded on a deserted island as they embark on a quest for survival that tests their limits.

King’s life takes a turn with his father’s death on a racetrack. From there, he begins his journey as an orphan who is marooned on an island, and goes on to become a business tycoon and then the leader of the world’s largest democracy. With his best friends, the love of his life, the respect of the people of his country, King’s life is complete and he is on his way to revolutionize the worlds of technology and politics. But with the entry of someone called the Godfather, King begins to lose everything that he holds dear. Will the world’s most powerful man get back what was taken from him, and achieve his goal of making his country the best in the world?

Vacationing on what they think is an uninhabited island, fifteen-year-old Peg and her father find their adventure turned into a fight for survival.

A small island, home to five hundred watermen and their families, is the subject of a study about a community that has stayed true to its past while witnessing the decline of the natural world surrounding it

Jaime Gallagher was nothing like the son his father wanted. The two had spent years at odds, but a chance desire to see his father's pet project on the mysterious island Sir Ian Gallagher owned brought Jaime into the middle of chaos. Months before, the creatures Sir Ian had bred on the island had broken from their prisons and claimed the island for themselves. Jaime is imprisoned, kept captive as the new leaders of the island decide his fate. While awaiting their decision, he chooses to live out a fantasy—one where he would give himself to one of the cavemen on the island. He hadn't planned for one to become two. Na'ear and Tig'un seem to be a package deal, and Jaime won't say no to double the loving. When feelings emerge, and strings threaten to entangle his future, he's rudderless in a sea of emotions. Will he escape Caveman Isle, or will he stay and face a future with two cavemen?
