My name is Hanna. I am 15. I am Latvian. I live with my mother and grandmother. My father is missing, taken by the Russians. I have a boyfriend and I'm training to be a dancer. But none of that is important any more. Because the Nazis have arrived, and I am a Jew. And as far as they are concerned, that is all that matters. This is my story. "A tragic, harrowing and deeply moving account of the Holocaust from the perspective of an ordinary girl." - The Bookseller

thousands of people to transform their bodies and feel amazing with his effective workouts and simple recipes. All of the recipes in *Cooking for Family and Friends* are organised into reduced-carb and post workout chapters, just like Joe's first three *Lean in 15* cookbooks. This makes it a brilliant addition for those already familiar with Joe's eating structure (carbs following workouts or on active days) but the meals are also enjoyable and tasty for all, whether you are following Joe's plan or not. *Cooking for Family and Friends* is a beautifully photographed

collection of Joe's easy favourites and crowd-pleasers, such as Roast Chicken with Celeriac Mash and Bacon Greens, BBQ Ribs with Dirty Corn, and Tandoori Chicken Thighs with Chapattis. All the recipes are big on flavour and packed with the hero ingredients you need to impress your mates, fuel your workout and burn fat.

Renowned French otolaryngologist Jean Abitbol, a lifetime student of the human voice, takes readers on an unforgettable odyssey spanning man's first use of voice through the acquisition of language to

the use of voice as an expression of self. With great wit and charm, Dr. Abitbol's narrative encompasses everything from the psychological to the physiological, from explaining the workings of the voice to celebrating the human voice's highest achievements. He describes a fascinating history of the voice, its origins, its course since the Homo Sapiens' first sentences, its episodes of hoarseness, and its achievements, from the newborn cry to the coloratura soprano, from the impersonator to the ventriloquist. After exploring what is known

about the voice, Dr. Abitbol tells us what our voices are capable of. He examines what he describes as "the magic of the voice": the voice as a fingerprint, a reflection of our personality in expressing our sex and sexuality. A great portion of this odyssey is devoted to singing and singers, both to the complexity of singing in general and to lyrical singing, the intricacies of which requires participation of the mechanical, emotional, and cerebral systems. The mysteries of the voice unfold as Dr. Abitbol guides readers through the latest physiological and

pathological research using examples of historical figures', patients', and celebrities' voices to explain how the ways in which the body moves affect the way the voice sounds and how vocal quality is unique to each human being. A unique tour de force of the human vocal instrument, Odyssey of the Voice changes the way we think about our voices.
