This Guide offered by Dreamgains Financials India PVT LTD, is helpful for those wants to learn stock market from Base. This comprehensive ebook contains fundamentals of stock market, how Indian stock market works and how to invest in Indian Stock market. Important tips, guidelines and more. Topics in Ebook are explained in simple but effective manner.

Proven High Profit Short Term Nifty Trading Patterns — Revealed Based on a rigorous 10-year research, and testing of thousands of trading rules, this path-breaking book — reveals hundreds of high profit short-term trading patterns, many with a winning record as high as 70% to 80%. While the author has used Nifty in uncovering these high probability patterns because Nifty is a large and liquid trading contract, traders can benefit by testing these patterns in any financial market they trade — stock markets, commodities, currencies, etc. Very little research has so far been done on the behaviour of the Indian markets. Path-breaking and original, this book reveals for the first time how you can hugely improve your trading performance with the help of meticulously tested and proven high profit price patterns. You can pick and choose from the large array of high probability patterns presented in this book. You can also use the book as your trading reference guide to compare ongoing market action with the market's past winning behaviour to maximize profitable trades while weeding out the losing ones. 10-year original research reveals high profit trading patterns:  
Open-to-Close Patterns Day of the Week Price Patterns New High / New Low Patterns Gap

Trading Patterns and Secrets    Range Expansion and Contraction Patterns    Inside Day Patterns    Doji Trading Patterns    Pivot Point Patterns and Trading Secrets    Tri and Penta Section Patterns Equally, this book offers you a framework to test and develop your own trading ideas for any financial market you wish to trade. This pioneering book, thus, arms you with power to trade with the odds stacked greatly in your favour.

On the first day of the Somme enlisted railwayman Jim Stringer lies trapped in a shell hole, smoking cigarette after cigarette under the bullets and the blazing sun. He calculates his chances of survival - even before they departed for France, a member of Jim's unit had been found dead. During the stand-off that follows, Jim and his comrades must operate by night the vitally important trains carrying munitions to the Front, through a ghostly landscape of shattered trees where high explosive and shrapnel shells rain down. Close co-operation and trust are vital. Yet proof piles up of an enemy within, and as a ferocious military policeman pursues his investigation into the original killing, the finger of accusation begins to point towards Jim himself . . .

Japanese rice traders have successfully used candle signals to amass huge fortunes for nearly four centuries. Constantly refined and tested over time, candlestick signals are now being used the world over for trading all financial markets, including stocks, derivatives and currencies, etc. This book explains step-by-step how you can make money by trading the powerful and proven candlestick techniques. Here is how:    Explanation of major candle signals; how to recognize them and use them effectively    The underlying market psychology revealed by each candle formation    How to combine candlestick signals with Western technical analysis to take advantage of high probability trades which generate explosive profits    Stop loss settings for various candlestick signals for cutting losses. Master this and you will be way ahead of fellow traders    How the use of candlesticks with technical analysis provides a simple mechanical trading system which eliminates emotional interference, panic and greed    How to use candlestick charts for making money from longer term trading and investing    PLUS: Proven, market-tested trading ideas tips and common mistakes to avoid based on the author's rich experience of trading stocks and options. This book will enable both new traders and experienced traders derive systematic and consistent profits from the market by adding candlestick charting to their trading arsenal. **REVIEWS FOR THE BOOK** "Educative addition to the technical trader's shelf." — The Hindu Business Line "Clearly explains and reinforces the message of each candlestick pattern, pointing out other details that can help determine success or failure at each occurrence. The real life examples are manifold, well chosen and amplify the lessons being taught. Highly recommended reading for traders in all markets to discover ways of profiting from candlestick trading." — Alan Northcott "Sadekar's book not only manages to live upto the expectations but probably excels them. Sadekar attempts to keep things simple, and targets the beginner to intermediate level technician as his target audience. Each type of reversal, consolidation and continuation pattern is tackled in individual chapters and illustrated liberally with charts of Indian stocks. The author leaves ample strategies for the not so active trader, also combining Dow theory tools like trend lines, oscillators and moving averages with the oriental techniques. This gives the reader an immediate advantage of getting the best of both the worlds. While all chapters are interesting read, chapters 11 & 12 are the highlights of the book as they lay out a simple but actionable game plan for a trader and investor. As if the overall package was not sweet enough, Sadekar has compiled a tear-away candlestick ready-reckoner at the end of the book to identify emerging patterns in real time. At its price, the book is a value buy. All in all, a must read book for every freshman candle sticks trader." — Vijay L. Bhambwani, Technical Analyst, CEO - BSPLIndia.com

About the book: Growing Wealth. Wise Investments. Good Returns. Big Profits. Good Income. Financial Freedom. These words are so heavy and amazing, right? Everyone is trying to achieve these in safe and simple ways. But what 's safe and simple? The book is a guide and a mini-course on trading and investing in the share market. I have put my experience so that it can help people. Also, it consists of good financial plans and good knowledge which will help you to achieve your goals in a better way. I am glad that you have reached here to gain good knowledge. Thank You

This book has been compiled with the intention to help the traders to learn the methods of Technical Analysis, its indicators, oscillators. The book explains how to apply the indicators, oscillators and how to draw conclusions using them for trend determination. Traders can also learn about the chart patterns and how to draw inferences from them by using this book. Through this book an attempt has been made to bring the knowledge of various indicators and oscillators of Technical Analysis to the hands of the traders in a very simple and proper manner, so that the learning becomes simple, easy and effective. It contains separate chapters on Dow Theory, Elliot Wave, Trendlines, Moving Averages, Bollinger Bands, MACD, RSI, Stochastics, Pivot Analysis, Supports & Resistance, PSAR, Fibonacci, Gaps and 10 important Chart Patterns. The entire subject of Technical Analysis is systematically arranged in a lucid step by step manner, in order to make the use of this book simpler and effective to the readers, so that they may be able to easily understand apply them into their trading for maximizing their profits. Author of this book has attained proficiency in Technical Analysis and has been analyzing the Indian markets, its index Nifty and stocks for more than two decades through various indicators, oscillators and chart patterns of Technical Analysis and by using Astrological Analysis as well. After completing his post graduation in economics, he started analyzing the Stock Markets with the parameters, indicators & oscillators of Technical Analysis & Fundamental Analysis as well as by applying his knowledge of Astrology into it. Author has been carrying out aggressive research and analysis on the markets and on the techniques of price prediction and has also published few books on his analysis that teaches an extra edge in making successful predictions. He is the one who propounded and gifted the world for the first time with his "Astrological Theory of Business Cycles" which helps to identify and predict the Business Cycles, Booms & Recessions with a method for timing these phases in advance. His "Astrological Theory of Business Cycles" was published for the first time in his book "Stock Market Astrology & Astrological Theory of Business Cycles" in the year 2009. His popular titles include "Stock Market Astrology & Astrological Theory of Business Cycles", "Predicting the Nifty & Sensex", "When to Buy and When to Sell in Stocks & Commodities" "Astro-Technical Analysis" & "Positional Trading in Nifty" apart from few other books written by him on astrology & horoscope analysis. Apart from predicting the stock markets he has been teaching Technical Analysis & Astrological Analysis, as well, to many of his students through his weekend classes. His best stock market predictions include the prediction of stock market fall in 1998-99 & 2000-01, which was made as a part of his mundane predictions for a magazine published from Chennai in 1995. This of his prediction turned out to be true as dotcom bubble burst and UTI US64 bond scam.

Even for the experienced trader, options trading can be a risky and intimidating investment strategy.
