The research reported in Caught in the Act draws together the insights gained from a continuous professional development initiative for high school mathematics teachers, teaching in low socio-economic status and socially challenged environments in South Africa. The chapters show the possibilities for enhancing achievement in school mathematics if a strength-based approach is adopted to develop teaching with teachers and when their concerns are taken seriously. The book demonstrates that the ecological relevance – fitness for the context in which teachers are teaching – of the “goods” developed and distributed by initiatives should be a major consideration to offer hope for sustainable implementation to improve school mathematics

WINNER OF THE 2014 FOLIO PRIZE AND SHORTLISTED FOR THE NATIONAL BOOK AWARD 2013 George Saunders's most wryly hilarious and disturbing collection yet, Tenth of December illuminates human experience and explores figures lost in a labyrinth of troubling preoccupations. A family member recollects a backyard pole dressed for all occasions; Jeff faces horrifying ultimatums and the prospect of Darkenfloxx™ in some unusual drug trials; and Al Roosten hides his own internal monologue behind a winning smile that he hopes will make him popular. With dark visions

of the future riffing against ghosts of the past and the ever-settling present, this collection sings with astonishing charm and intensity.

A haunting examination of groupthink and mass hysteria in a rural community The place is Salem, Massachusetts, in 1692, an enclave of rigid piety huddled on the edge of a wilderness. Its inhabitants believe unquestioningly in their own sanctity. But in Arthur Miller's edgy masterpiece, that very belief will have poisonous consequences when a vengeful teenager accuses a rival of witchcraft—and then when those accusations multiply to consume the entire village. produced in 1953, at a time when America was convulsed by a new epidemic of witch-hunting, *The Crucible* brilliantly explores the threshold between individual guilt and mass hysteria, personal spite and collective evil. It is a play that is not only relentlessly suspenseful and vastly moving but that compels readers to fathom their hearts and consciences in ways that only the greatest theater ever can. "A drama of emotional power and impact" □New York Post

Bravely, secretly, they set off on the long journey to the big city to find Mma. It isn't until they finally reach Johannesburg that they see up close what life is like for black citizens across South Africa and begin to really question the unfair and dangerous laws of apartheid.

Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to

and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. Families Caring for an Aging America examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.
