Readers will appreciate the state of the art nutrition and weight assessment guidelines, the practical clinical techniques for managing bingeing, purging, excessive exercise, and weight restoration as well as the unique food planning approach developed by the authors. As a comprehensive overview of food and weight-related treatments, this book is an indispensable resource for nutrition counselors, psychotherapists, psychiatrists, physicians, and primary care providers.~~

~~The text covers communications, counseling, interviewing, motivating clients, delivering oral presentations and using media in presentations. Communication is basic to the relationship that the Registered Dietitian (RD) professional has with their clients. The Academy of Nutrition and Dietetics recognizes the importance of communication skills for practitioners to promote health, disease prevention and treatment. Providing people with information on what to eat is not enough, the RD must also promote and facilitate behavior changes to more healthful food choices. The text incorporates the Nutrition Care Process (NCP) and model, including four steps of nutrition assessment, nutrition diagnosis using PES statement (Problem, Etiology and Signs/Symptoms), nutrition intervention, and nutrition monitoring and evaluation. The PES statements are the most critical in that the Academy of Nutrition and Dietetics has been stressing this as an essential component of their standards and requirements. The text uses activities, case studies, self assessment questions, web references and graphics to engage the student and drive the content home.~~

~~Medical Nutrition Therapy introduces the fundamentals of nutrition assessment and therapy, and revisits this concepts throughout the changing context of various disease states. The text utilize a case based approach which incorporates problem-based learning and engages the reader in various clinically based scenarios after discussing the core science of the subject matter. Each chapter opens with a case study and details and further information from the case are woven throughout the chapter in order to reinforce the relevance of various topics. Chapter cases go on to discuss how the nutrition care process can be applied to the case.~~
