All models inc. special/limited editions. Does NOT cover revised Frontera range introduced October 1998. Petrol: 2.0 litre (1998cc), 2.2 litre (2198cc) & 2.4 litre (2410cc). Turbo-Diesel: 2.3 litre (2260cc), 2.5 litre (2499cc) & 2.8 litre (2771cc).

For the world's leading car-makers, the early 1990s brought radical changes. The reports published by MIT shocked management in European and American industries. Former major companies had to face consequences no one had expected. The assembly-lines were reorganized in order to achieve higher quality at lower costs. Five years after the MIT report, this book poses the question: What are the results of this revolution in work organization? Scientists and practitioners, many of them involved in earlier reports, evaluate the changes to the automotive industry in Europe and Japan. An insight into recent concepts in automation and the organization of production.

First published in 1981, this book has long been recognized as the 'bible of Scalextric', providing a complete catalogue of the cars and equipment produced. Now, for this seventh edition, the book has undergone a transformation, with a complete redesign and masses of new information about cars, sets and accessories produced around the world. As well as extra detail about earlier periods, there is full coverage of all the new Scalextric products launched in the four years that have elapsed since the previous edition. Now containing nearly 1,000 photographs, this book has become an extraordinarily detailed summary of everything in the world of Scalextric, written by an author who has been captivated by the subject for nearly 50 years.

The full story and complete reference guide for the iconic Saab 900

This series of comprehensive manuals gives the home mechanic an in-depth look at specific areas of auto repair.
