Business Strategy Selection

Strategy and structure are two separate concepts in business that affect multiple aspects. Strategy serves as a plan of action for the business, determining what the business is going to do next, how they're going to do it, and when. It predates the business' structure, since the creation of an organizational structure requires planning for its execution.¹ The entire layout of the business down to the last detail needs to be carefully planned in order for it to be a cohesive structure that ...

How Strategy Shapes Structure -
Harvard Business Review

The structure of an organization is tangible and physical, which means that it is visible to internal as well as external stakeholders of a company. An organization's structure is based on the overall strategy, which drives the policies and procedures of an organization. Consequently, the policies decide the behavior of managers and other associates within a company.

Organizational Structure Definition

Organizational strategies sum up all of the actions you intend to take in order to achieve your long-term business goals. Your organizational strategy will arise from your company's mission – the reason you're in business. Every action you take should seek to fill that one purpose, with that mission guiding all of your strategic decisions.
