Do not make date printing settings in shop or on printer for pictures with date ASPECT RATIO PICT. SIZE After DATE STAMP stamps. (Date printing may be overlapping.) 7M, 5M (6M only for DMC-TZ2) 7M (6M for DMC-TZ2), 4.5M 2.5M 16:9 6M (5.5M for DMC-TZ2), 3.5M Picture will become slightly grainier.

In these days of an aging traditional audience, shrinking attendance, tightened budgets, increased competition, and exponential growth in new types of communication methods, America ' s house museums need to take bold steps and expand their overall purpose beyond those of the traditional museum. They need not only to engage the communities surrounding them, but also to collaborate with visitors on the type and quality of experience they provide. This book is a groundbreaking manifesto that calls for the establishment of a more inclusive, visitor-centered paradigm based on the shared experience of human habitation. It draws inspiration from film, theater, public art, and urban design to transform historic house museums while providing a how-to guide for making historic house museums sustainable, through five primary themes: communicating with the surrounding community, engaging the community, re-imagining the visitor experience, celebrating the detritus of human habitation, and acknowledging the illusion of the shelter ' s authenticity. Anarchist's Guide to Historic House Museums offers a wry, but informed, rule-breaking perspective from authors with years of experience and gives numerous vivid examples of both good and not-so-good practices from house museums in the U.S.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

Hands-on activities enrich the learning experience Earth Science provides easy-to-understand instruction on Earth, planets, atoms, elements, oceans, and climate. This full-color text is ideal for students and young adults who need science instruction that meets national science standards. Lexile Level 840 Reading Level 3-4 Interest Level 6-12

CD-ROM contains full text for all the procedures available in the manual. Files are provided both as fully formatted Word 6.0 (.doc) documents and as text-only documents (.txt).

He'd spent the past twenty years trying to outrun his violent family history. Now—against his will— Nate Shelton is back in Finnagan Cove where it all began. Where it's got to end. And not just for his dad's sake. But Jenna Malloy will never forget the murder she witnessed when she was a girl. Or that Nate is the son of the man who killed her father. How could either of them know they'd be blindsided by a secret that would force them to face the truth and their feelings for each other?

From #1 New York Times bestseller Mike Lupica! It's simple. All Billy Raynor wants to do is shoot. After all, he is one of the best shooters in the league. But with his dad as his coach, and his parents newly separated, somehow everything's become complicated. His brother Ben hardly talks anymore. His mom is always traveling on business. And his dad is always on his case about not being a team player. But when Ben's piano recital falls on the same day as the championship game, it's Billy who teaches his dad the meaning of being a team player.

This clear and lively introduction to probability theory concentrates on the results that are the most useful for applications, including combinatorial probability and Markov chains. Concise and focused, it is designed for a one-semester introductory course in probability for students who have some familiarity with basic calculus. Reflecting the author's philosophy that the best way to learn probability is to see it in action, there are more than 350 problems and 200 examples. The examples contain all the old standards such as the birthday problem and Monty Hall, but also include a number of applications not found in other books, from areas as broad ranging as genetics, sports, finance, and inventory management.

DIVRich harvest of blossoms, vines, and other floral decorations has an unlimited variety of applications, allowing images to serve equally well as individual motifs or as running borders. Approximately 325 designs. /div
