The Master Plan is a groundbreaking expose of the work of German scientists and scholars who allowed their research to be warped to justify extermination, and who directly participated in the slaughter -- many of whom resumed their academic positions at war's end. It is based on Heather Pringle's extensive original research, including previously ignored archival material and unpublished photographs, and interviews with living members of the institute and their survivors.

Acclaimed science writer Heather Pringle uncovers the true story of the scientists and archaeologists Heinrich Himmler deployed to find proof for his theories of a prehistoric Aryan master race. What happens when science falls prey to a political agenda? Pre-history, according to Heinrich Himmler, must be re-written.

“ A fascinating volume detailing the Nazis ’ crackpot theories about prehistory and the Indiana Jones – style lengths they went to prove them. ” —Publishers Weekly In 1935, Heinrich Himmler established a Nazi research institute called The Ahnenerbe, whose mission was to send teams of scholars around the world to search for proof of ancient Aryan conquests. But history was not their most important focus. Rather, the Ahnenerbe was an essential part of Himmler ’ s master plan for the Final Solution. The findings of the institute were used to convince armies of SS men that they were entitled to slaughter Jews and other groups. And Himmler also hoped to use the research as a blueprint for the breeding of a new Europe in a racially purer mold. The Master Plan is a groundbreaking expose of the work of German scientists and scholars who allowed their research to be warped to justify extermination, and who directly participated in the slaughter—many of whom resumed their academic positions at war ’ s end. It is based on Heather Pringle ’ s extensive original research, including previously ignored archival material and unpublished photographs, and interviews with living members of the institute and their survivors. A sweeping history told with the drama of fiction, The Master Plan is at once horrifying, transfixing, and monumentally important to our comprehension of how something as unimaginable as the Holocaust could have progressed from fantasy to reality. “ Pringle ’ s engrossing book . . . explores a little-known corner of Nazi history: the story of the Ahnenerbe . . . rich in such bizarre characters, ridiculous theories and colorful anecdotes. Massively researched and engagingly written. ” —The Daily Telegraph

In 1935, Heinrich Himmler established a Nazi research institute called The Ahnenerbe, whose mission was to search around the world for proof of ancient Aryan conquests. But history was not their most important focus--rather, the Ahnenerbe was an essential part of the plan for the Final Solution. The findings were used to convince armies of SS men that they were entitled to slaughter Jews and other groups. Himmler also hoped to use the research as a blueprint for the breeding of a new Europe in a racially purer mold. This book, based on original research, including previously ignored archival material and interviews with living members of the institute, is an exposé of the work of German scientists and scholars who allowed their research to be warped to justify extermination, and who directly participated in the slaughter--many of whom resumed their academic positions at war's end.--From publisher description.

This is a novel about love, hate, loyalty, and betrayal, how many of us history connects and separates, how many of us and our lives go in a limbo between life and death. It is a novel written with a rich inspiration that we leave the subject of a secret organization and powers and our things in the wrong or right hands and an impossible love that does not happen by accident. It can all run past.

During the 1930s, in the build up to the Second World War, the Nazis established a band of specialists, the SS-Ahnenerbe, under the command of Heinrich Himmler and Hermann Wirth. Their aim was nothing less than to prove the superiority of the Aryan race, and with it the unique right of the German people to rule Europe. The occult figured as a key feature in many of these increasingly desperate quack research efforts. Part science, part espionage, and part fantasy. Archaeological expeditions were sent to Iceland, Tibet, Kafiristan, North Africa, Russia, the Far East, Egypt, and even South America and the Arctic. The Nazi Ancestral Heritage Societys chief administrator was Dr Wolfram Sievers, who cruelly conducted medical

File Type PDF The Master Plan Himmlers Scholars And The Holocaust

experiments on prisoners in concentration camps, and was responsible for the looting of historic artefacts considered Germanic for return to Germany. He rewarded those academics that took part with high military office, whilst those academics who contradicted or criticized the SS-Anenerbe were carted off to concentration camps where they faced certain death. This book tells the true history of the real life villains behind the Indiana Jones movies. Sometimes truth really is stranger than fiction!

This incredible exploration of the murky world of pseudo-history reveals the mix of proven facts, informed speculation, and pure fiction behind lost continents, ancient super-civilizations, and conspiratorial cover-ups—as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter-day Saints. Drawing on the best scholarship available, Ronald H. Fritze shows that in spite of strong, mainstream historical evidence to the contrary, many of these ideas have proved durable and gained widespread acceptance. As the examples in *Invented Knowledge* reveal, pseudo-historians capitalize on and exploit anomalies in evidence to support their claims, rather than examining the preponderance of research as a whole.

Mummies, experts, and breaking science revealed in journalist Pringle's fascinating dive into a little-known arena of human studies. Perhaps the most eccentric of all scientific meetings, the World Congress on Mummy Studies brings together mummy experts from all over the globe and airs their latest findings. Who are these scientists, and what draws them to this morbid yet captivating field? *The Mummy Congress*, written by acclaimed science journalist Heather Pringle, examines not just the world of mummies, but also the people obsessed with them.

Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. “ A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought. ” —Kirkus Reviews In *Fingerprints of the Gods*, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind ’ s hidden past. In ancient monuments as far apart as Egypt ’ s Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico ’ s awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And *Fingerprints of God* tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. “ Readers will hugely enjoy their quest in these pages of inspired storytelling. ” —The Times (UK)

Reveals for the first time Heinrich Himmler's master plan for Europe: an SS empire that would have no place for either the Nazi Party or Adolf Hitler. His astonishingly ambitious plan depended on the recruitment of tens of thousands of 'Germanic' peoples to build an 'SS Europa'. Himmler fervently believed that over many centuries, 'Germanic' blood had been 'seeded' in every corner of Europe and even parts of Asia. This book, researched in archives all over Europe and using first-hand testimony, exposes Europe's dirty secret: that nearly half a million Europeans and more than a million Soviet citizens enlisted in the armed forces of the

File Type PDF The Master Plan Himmlers Scholars And The Holocaust

Third Reich - to fight a crusade against 'Jewish-Bolshevism'. No other historian has examined the connections between these SS 'foreign legions' (both police and Waffen-SS) and the Holocaust. Even today, some apologists claim that the foreign volunteers were merely soldiers 'like any other' and fought a decent war against Stalin's Red Army. Christopher Hale demonstrates conclusively that these surprisingly common views are mistaken. And as the Reich collapsed in 1944, Himmler's monstrous scheme would lead to bitter confrontations with Hitler - and the downfall of the man once known as 'loyal Heinrich'.

Eva Braun is one of history's most famous nonentities. She has been dismissed as a racist, feathered-headed shop girl, yet sixty-two years after her death her name is still instantly recognizable. She left her convent school at the age of seventeen and met Hitler a few months later. She became his mistress before she was twenty. How did unsophisticated little Fraulein Braun, twenty-three years his junior, hold the most powerful man in Europe in an exclusive sexual relationship that lasted from 1932 until their joint suicide? Were they really lovers, and what were the background influences and psychological tensions of the middle-class Catholic girl from Munich who shared his intimate life? How can her ordinariness and apparent decency be reconciled with an unshakeable loyalty to the monster she loved? She left almost no personal material or documents but her private diary and photograph albums show that her life with Hitler, far from being a luxurious sinecure, caused her emotional torture. His chauffeur called her "the unhappiest woman in Germany." The Führer humiliated her in public while the top Nazis' wives, living in his privileged enclave on a Bavarian mountainside, despised her. Yet Albert Speer said: "She has been much maligned. She was very shy, modest. A man's woman: gay, gentle, and kind; incredibly undemanding . . . a restful sort of girl. And her love for Hitler---as she proved in the end---was beyond question." Eva loved the Führer, not for his power, nor because, thanks to him, she lived in luxury. His material gifts were nothing compared with the

File Type PDF The Master Plan Himmlers Scholars And The Holocaust

one thing she really wanted: his child. She remained invisible and unknown, a nonperson. They were never seen in public together and she never saw him alone except in the bedroom, yet their long relationship was a sort of marriage. Angela Lambert reveals a woman the world never knew until the last twenty-four hours of her life. In the small hours of April 29, 1945, as Allied troops raced to capture Berlin and the bunker below the Reichskanzlei where the defeated Nazi leaders were hiding, Eva Braun finally achieved her life's ambition by becoming Hitler's wife. Next day they both swallowed cyanide and died instantly. She was young, healthy, and thirty-three years old. Based on detailed new research, this is an authoritative biography, only the second life of Eva written in English.

“ A dense and scholarly book about . . . the relationship between the Nazi party and the occult . . . reveals stranger-than-fiction truths on every page. ” —Daily Telegraph The Nazi fascination with the occult is legendary, yet today it is often dismissed as Himmler ' s personal obsession or wildly overstated for its novelty. Preposterous though it was, however, supernatural thinking was inextricable from the Nazi project. The regime enlisted astrology and the paranormal, paganism, Indo-Aryan mythology, witchcraft, miracle weapons, and the lost kingdom of Atlantis in reimagining German politics and society and recasting German science and religion. In this eye-opening history, Eric Kurlander reveals how the Third Reich ' s relationship to the supernatural was far from straightforward. Even as popular occultism and superstition were intermittently rooted out, suppressed, and outlawed, the Nazis drew upon a wide variety of occult practices and esoteric sciences to gain power, shape propaganda and policy, and pursue their dreams of racial utopia and empire. “ [Kurlander] shows how swiftly irrational ideas can take hold, even in an age before social media. ” —The Washington Post “ Deeply researched, convincingly authenticated, this extraordinary study of the magical and supernatural at the highest levels of Nazi Germany will astonish. ” —The Spectator “ A

File Type PDF The Master Plan Himmlers Scholars And The Holocaust

trustworthy [book] on an extraordinary subject. ” —The Times “ A fascinating look at a little-understood aspect of fascism. ” —Kirkus Reviews “ Kurlander provides a careful, clear-headed, and exhaustive examination of a subject so lurid that it has probably scared away some of the serious research it merits. ” —National Review
