The Quest for Cortisone: Amazon.co.uk: Thom Rooke: Books

In 1948, when "Mrs. G." hospitalized with debilitating rheumatoid arthritis, became the first person to receive a mysterious new compound — cortisone — her physicians were awestruck by her transformation from enervated to energized. After eighteen years of biochemical research, the most intensively hunted biological agent of all time had finally been isolated, identified, synthesized, and put to the test.
