Why would a talented young woman enter into a torrid affair with hunger, drugs, sex, and death? Through five lengthy hospital stays, endless therapy, and the loss of family, friends, jobs, and all sense of what it means to be "normal," Marya Hornbacher lovingly embraced her anorexia and bulimia -- until a particularly horrifying bout with the disease in college put the romance of wasting away to rest forever. A vivid, honest, and emotionally wrenching memoir, *Wasted* is the story of one woman's travels to reality's darker side -- and her decision to find her way back on her own terms.

subject.”—Kari Byron, former cast member of *MythBusters Waste*. We spend a great deal of energy trying to avoid it, but once you train your eyes to look for it, you’ll see it all around you—in your home, your business, and your everyday life. In *Wasted*, futurist Byron Reese and entrepreneur Scott Hoffman take readers on a fascinating journey through this modern world of waste, drawing on science, economics, and human behavior to envision what a world with far less of it—or none of it at all—might look like. Along the way, they explore thought-provoking issues such as • why the United States got a higher proportion of its energy from renewable sources in 1950 than it does today • whether the amount of gold in unused consumer electronics can be mined for profit • how switching to water fountains on a single flight from Singapore to Newark could prevent the use of 3,400

plastic bottles • whether the amount of money you save buying goods in bulk is offset by the amount you lose when some spoil Ultimately, the question of reducing waste is scientific, philosophical, and, most of all, complex. According to Reese and Hoffman, the rush toward simple answers has often led to well-meaning efforts that cause more waste than they save. The only way we can hope to make progress is to treat waste as the complicated issue it is. While the authors don't promise easy answers, in this compelling book they take an important step toward solutions by examining the questions at play, giving actionable steps, and ensuring that you'll never see the world of waste the same way again.

people conquer their addictions, but this knowledge did not prevent his own near-demise. In this riveting memoir, he recounts how he lost his practice, his home, and his family--all because of his drinking. After scores of visits to the ER, a tour of hellish recovery homes, a stint in intensive care for end-stage alcoholism, and jail, Pond devised his own personal plan for recovery. He met Maureen Palmer and together they investigated scientific alternatives to the rigid abstinence doctrine pushed by 12-Step programs.

A New York Times Notable Book: Acclaimed true-crime journalist Linda Wolfe delivers a riveting, comprehensive account of the Preppie Murder, a crime that shocked a city and a nation. It was called the Preppie Murder—a killer and a victim who were attractive, smart, privileged teenagers. On an August night in 1986 Jennifer Levin left a Manhattan bar with Robert Chambers. The next morning, her strangled, battered body was found in Central Park. Linda Wolfe, hailed by critic John Leonard as “one of our best reporters,” goes beyond the headlines and media hype to re-create a story of privilege and excess, sex and partying—of a teenager whose immigrant mother was determined to make a better life for her son, a petty thief and drug user who’d been expelled from the best schools. It’s all here, from the initial police investigation, during which Chambers

Wolfe also delivers heartbreaking portraits of Levin's grief-stricken father, Chambers's in-denial mother, and the women who dated the accused Preppie Killer while he was out on bail. A finalist for the 1990 Edgar Award for Best Fact Crime, *Wasted* also powerfully depicts the freewheeling 1980s society that spawned a generation steeped in violence and the fatal impulses that drove Robert Chambers to kill.

A detective's dark past meets his violent present in "[a] rich tapestry that lifts the police procedural into the realm of the mainstream novel" (Sue Grafton).
