This series of wordless picture books aims to help children with speech, language and communication needs (SLCN) to develop their expressive sentence and narrative skills, through learning to tell each story. There are 10 stories that will be separated into two levels, geared towards advancing the child from simple to intermediate and complex sentences. The stories are written in the style of a film scroll and contain familiar events to ensure the story is understandable. The general formula of each story will be a disruption (often humorous) in familiar routines followed

familiar animals invite young children to copy their antics, and as they play, they will learn such important skills as careful listening, focusing attention, and following instructions. Just as alphabet books introduce the very young child to letters and simple words, *From Head to Toe* introduces the basic body parts and simple body movements. And in the same way that children progress from understanding simple words to reading and writing sentences and stories, so they will progress from simple body movements to dancing, gymnastics, and other sports and activities, with confidence and pleasure. Eric Carle's colorful collages have delighted children for more than a generation. Each book provides hours of fun while encouraging them to stretch their imaginations. Named by Parents Magazine as the "Best Book that Champions Kindness"! This simple yet powerful picture book--from a New York Times bestselling husband-and-wife team--tells the story of one girl who inspires a community to stand up to bullying. Inspired by real events, *I Walk with Vanessa* explores the feelings of helplessness and anger that arise in the wake of seeing a classmate treated badly, and shows how a single act of kindness can lead to an entire community joining in to help. By choosing only pictures to tell their story, the creators underscore the idea that someone can be an ally without having to say a word. With themes of
