Read award-winning journalist Frank Bruni's New York Times bestseller: an inspiring manifesto about everything wrong with today's frenzied college admissions process and how to make the most of your college years. Over the last few decades, Americans have turned college admissions into a terrifying and occasionally devastating process, preceded by test prep, tutors, all sorts of stratagems, all kinds of rankings, and a conviction among too many young people that their futures will be determined and their worth established by which schools say yes and which say no. In Where You Go is Not Who You'll Be, Frank Bruni explains why this mindset is wrong, giving students and their parents a new perspective on this brutal, deeply flawed competition and a path out of the anxiety that it provokes. Bruni, a bestselling author and a columnist for the New York Times, shows that the Ivy League has no monopoly on corner offices, governors' mansions, or the most prestigious academic and scientific grants. Through statistics, surveys, and the stories of hugely successful people, he demonstrates that many kinds of colleges serve as ideal springboards. And he illuminates how to make the most of them. What matters in the end are students' efforts in and out of the classroom, not the name on their diploma. Where you go isn't who you'll be. Americans need to hear that—and this indispensable manifesto says it with eloquence and respect for the real promise of higher education.

"God has placed before you an open door. What will you do?"

Tells children that whatever they do and wherever they go, your greatest hope is that they will love and follow Jesus.

A misanthropic matriarch leaves her eccentric family in crisis when she mysteriously disappears in this "whip-smart and divinely funny" novel that inspired the movie starring Cate Blanchett (New York Times). Bernadette Fox is notorious. To her Microsoft-guru husband, she's a fearlessly opinionated partner; to fellow private-school mothers in Seattle, she's a disgrace; to design mavens, she's a revolutionary architect; and to 15-year-old Bee, she is her best friend and, simply, Mom. Then Bernadette vanishes. It all began when Bee aced her report card and claimed her promised reward: a family trip to Antarctica. But Bernadette's intensifying allergy to Seattle -- and people in general -- has made her so agoraphobic that a virtual assistant in India now runs her most basic errands. A trip to the end of the earth is problematic. To find her mother, Bee compiles email messages, official documents, and secret correspondence -- creating a compulsively readable and surprisingly touching novel about misplaced genius and a mother and daughter's role in an absurd world.

" a finely crafted novel with a killer twist. " (#1 New York Times bestselling author Paula Hawkins) On a rainy afternoon, a mother's life is shattered as her son slips from her grip and runs into the street... I Let You Go follows Jenna Gray as she moves to a ramshackle cottage on the remote Welsh coast, trying to escape the memory of the car accident that plays again and again in her mind and desperate to heal from the loss of her child and the rest of her painful past. At the same time, the novel tracks the pair of Bristol police investigators trying to get to the bottom of this hit-and-run. As they chase down one hopeless lead after another, they find themselves as drawn to each other as they are to the frustrating, twist-filled case before them. Elizabeth Haynes, author of Into the Darkest Corner, says, " I read I Let You Go in two sittings; it made me cry (at least twice), made me gasp out loud (once), and above all made me wish I'd written it...a stellar achievement. "
